TRENDY BEECH STYLE

K4368 MO Beech SWARAN, Classic Touch 8 mm AC4, Standard Plank

A close-up photograph of a wooden surface, likely a plank, showing a detailed view of the wood grain. The grain is vertical and exhibits a 'sunburnt' style with prominent, dark knots and natural imperfections. The color is a warm, light brown with darker, almost black, spots where the knots are located. The texture appears slightly rough and natural.

FANCY BRUSHED WALNUT

K4367 AV Walnut SABO, Classic Touch 8 mm AC4, Standard Plank

The image shows a close-up of a dark brown wood surface with a vertical grain. A prominent, light-colored knot is visible in the center-right area. The wood has a rich, textured appearance with various shades of brown and some lighter, weathered-looking areas.
